Link of orientation class : <https://youtu.be/PceyYCOtFNQ>

WEST is conducted at the national level with the aim of helping students to understand their work skills according to the course they are doing and employers to understand your skills.

WEST is one of largest graduate employability measurement tools globally with millions of candidates from over 27 countries globally using it. Wheebox Employability Skill Test is an online adaptive assessment used to measure job readiness.

WEST is a 70 minutes' test which measures a candidate's Cognitive Ability along with English. Behavioural Traits and respective Domain knowledge. WEST is targeted at freshers aiming to give them a snapshot of their capability around Numerical aptitude, Problem solving. English, computing Skills and Behavioural Traits. One of the key objectives of WEST is to do a meaningful matchmaking between Talent Demand and Supply.

About West

Employability skills are general skills that are required to secure most of the jobs. These help you to stay in a job and work your way up to the top. While there will always be some job-specific skills that an employer is looking for, most employers will also want you to have some general skills. Employability Skills are also the skills and attitudes that enable employees to get along with their colleagues, make critical decisions, solve problems, develop respect and ultimately become strong ambassadors for the organization. Employability Skills are the foundation of a successful career.

Wheebox Employability Skills Test

The most important question that a candidate faces once he/she is ready to join the job market is 'Is he/she job ready?' With a course curriculum, which is yet to be calibrated with the needs of employers, it gets difficult for the students/candidates to understand how ready they are and what areas do they need to improve in.

WEST is one of largest graduate employability measurement tools globally with millions of candidates from over 27 countries globally using it. Wheebox Employability Skill Test is an online adaptive assessment used to measure job readiness.

WEST is a 70 minutes' test which measures a candidate's Cognitive Ability along with English, Behavioural Traits and respective Domain knowledge. WEST is targeted at freshers aiming to give them a snapshot of their capability around Numerical aptitude, Problem solving, English, computing Skills and Behavioural Traits. One of the key objectives of WEST is to do a meaningful matchmaking between Talent Demand and Supply.

WEST can spot a candidate's ability with fewer questions than any other similar employability skills test. The end result is that WEST identifies individual's real capability as the possibility of getting the same combination of questions for any two-test takers is very less.

Visit www.wheebox.com for more information.

Globally Top 8 Employability Skills are:

Analysing Skills: Gathering information systematically to establish facts & principles.

Communication: Ability to express clearly through Reading writing and Listening Skills.

Teamwork or Interpersonal Skills: Working confidently within a group or possessing inter personal-skills.

Flexibility: Adapting successfully to changing situations & environments.

Decision Making and Planning: Determining the best course of action: Evaluating options based on logic & facts & presenting solutions. Ability to decide what steps are needed to achieve particular goals and then implement these.

Lifelong Learning: Continuous learning throughout life: Developing the competencies needed for current & future roles.

Computing Skills: Understanding of Word processing, using spreadsheets, the Internet & email, designing presentations etc.

Numeracy: Accurately multiplying & dividing, calculating percentages, using statistics & interpreting graphs & tables.

Researches suggest that knowledge, skill, aptitude and behavioural components are the ingredients of success in a job. WEST helps employers to short list candidates using WEST scores. As an outcome of WEST, candidates get initial transcript and detailed scorecards for each module highlighting their strengths and improvement areas.

The WEST assessment runs on an adaptive testing method. The next question presented to the candidate depends on the response of the current question. In Adaptive method, questions are divided into 3 difficulty levels.

The levels are categorised as Easy, Medium & Hard.

Each correct answer will move the candidate up to a higher difficulty level question and each wrong answer will move the candidate down to a lower difficulty level question. Candidate's scoring is also dependent on the difficulty level of questions. Higher difficulty level fetches higher score and lower difficulty level fetches lower scoring.

Wheebox National Employability Test Certificate

IS PROUDLY PRESENTED TO

Ali Shan P P

has successfully secured India wide 38th percentile rank

Date of Certification: 2021-10-13
Certification ID: WNET1134784174
