

Avodha is India's leading skill training platform, with Head Office located at Infopark, Kochi, Kerala. Avodha Edu-Tech Pvt. Ltd. is a dedicated platform where we facilitate skill based training programs for freshers and conduct adjoining placement activities. Our mission is to upskill India's youth and place them in domain-specific jobs. With a single-minded objective of bringing about a qualitative change in campus recruitments, Avodha has carved a niche for itself by focusing on mentoring and consulting at the grass root levels; be it students, colleges, or even training programs. Our understanding so far tells us that most students need to cover a lot of ground in basic aptitude skills, communication, exposure to relevant industries, and interpersonal abilities. Avodha makes every effort to plug this gap and make every student industry-ready.

On behalf of Avodha Edu-Tech Pvt. Ltd., I am glad to confirm that on March 3, 2022, we successfully conducted a seminar in Markaz Arts and Science College, Adhavanadu, Malappuram. This seminar turned out fruitful for the students where they got to know about AVODHA and other details like:

- a) Brief on the features we provide to the students like 9 hrs of Live sessions
- b) Our placement program 'JAP and other placement services'
- c) Skill based Interview Training
- d) How to choose the right career path

Furthermore, I am delighted and must point out that the students gave their 100% while attending the seminar by asking relatable questions and queries.
